

# The Hopkinsville Kentuckian.

VOL. XXVII.

HOPKINSVILLE, KENTUCKY, TUESDAY, JULY 25, 1905.

NO. 88.

Those ...

**>\$7.50<**  
**SUITS**

That are worth \$10.00 to \$16.50, would be grabbed up in a days' time if we could get the fact soaked into the heads of these busy men folks.

**There are**  
**All sizes**

In the lot--33 to 42--and all colors and kinds of goods. The early comers, of course, get the best bargains.

**J. H. ANDERSON & CO.**

E. B. LONG,  
Pres.

W. T. TANDY,  
Cashier.

JAS. A. YOUNG, Jr.  
Asst. Cashier.

**THE CITY BANK.**

**CAPITAL - - - - - \$60,000.**  
**Surplus and Undivided Profits, - \$70,000.**

The surplus of this bank, every dollar of which has been earned, is larger than that of all other Banks in Christian county combined, and in proportion to capital, ranks among the very first in whole State of Kentucky.

## WILDER IS IN KENTUCKY.

Was In Madisonville Friday  
Hobnobbing With Cum-  
berland Manager.

DENIALS ARE USELESS.

Messrs. Caldwell and Hume  
to Be Given One More  
Chance to Tell Truth.

The mystery of Richard Wilder, the letter-writer, of Evansville, is about to be solved.

Inasmuch as Messrs. Caldwell and Hume deny having knowledge that Wilder is in their employ, we would suggest that they confer with Manager Catlett, of Evansville, and Manager Mitchell, of their Madisonville exchange.

Mr. Wilder was registered at the Hotel Lucile, Madisonville, last Friday, and was seen in close conference with Mr. Mitchell.

It seems useless to further evade answering the question as to whether or not Wilder is an employee of the Cumberland Telephone Company. However, the Home Telephone Company will give Messrs. Caldwell and Hume two days longer to answer the questions propounded to them in regard to Wilder, whose letters were circulated in their interest.

R. E. COOPER, Pres.,  
Home Tel. Co.

## CORRECTED REPORT

Shows Ten Per Cent. Re-  
duction in Kentucky  
Acreage.

The new report on the acreage of the tobacco crop which is just given out at Washington shows that the figures heretofore made up were wrong. It shows that the acreage in the regie and burley tobacco districts is very much less than was shown by the previous report. In Kentucky the revised report shows about a ten per cent. reduction in the acreage compared with the first report. The Department vouches for the revised figures.

## In Critical Condition.

Mrs. Dr. James E. Oldham is in a very critical condition at her home on South Clay street. Her death is expected at any hour.

## BENNINGTON BLOWN UP.

Explosion at San Diego, Cal-  
ifornia, Worst Since  
Maine Disaster.

MORE THAN 60 KILLED.

As Many More Terribly In-  
jured by Steam--One  
Officer Killed.

San Diego, Cal., July 23.—The United States gunboat Bennington, under command of Commander Lucian Young, arrived here Tuesday morning after a voyage of nine days from Honolulu, and had been taking coal with the expectation of sailing immediately for Panama to relieve the Princeton. Last night Commander Young received a change of orders and was directed to proceed at once to Port Harford, near Santa Barbara, to assist the Wyoming, which put into that harbor day before yesterday in distress, having lost a propeller blade and suffering from a cranky shaft.

About 10:30 o'clock, July 21, while the officers and crew, under direction of Lieutenant Yates, acting executive officer (Commander Young being ashore) were clearing the ship ready for departure the after end of the port main boiler blew out, filling the ship with steam, bursting a large hole in the deck, blowing out several plates on the port side of the vessel and carrying away nearly all the ventilators and rigging.

The ship was shaken from stem to stern, the deck was covered with the bodies of the dead and wounded and with wreckage of every sort. A number of men on the deck were blown seventy-five or a hundred feet into the air and the remainder of the crew jumped overboard to escape from the steam. Several tugs, a ferry boat and other vessels in the harbor went immediately to the assistance of the Bennington and picked up a large number of men from the water.

A complete summary of the disaster may now be given with some degree of accuracy. The total number of casualties are placed at 110, as follows:

Known dead, forty-nine; dead believed to be in flooded compartments of the vessel, seven; now at hospitals under treatment, fifty-four; total, 110.

A number of men are still missing, the total not being obtainable at this

**Big Lot Soap

hour. It is possible, however, when the complete story is written, the casualties will foot up 125.

## The Identified Dead.

As far as identified the dead are: Ensign N. K. Perry, F. W. Brown, J. Newcomb, B. A. Hughes, A. B. Ensel, A. Kamerer, W. Cherry, C. Rusing, A. H. Scruggs, R. Haggblom, W. R. E. Carr, H. A. Saunders, E. Breach, J. L. Burns, M. G. Quinn, C. J. Kuntz, J. Hilscher, G. Brownlee, F. M. Geiss, Preton Carpenter, Charles McKeon, E. W. Brunson, J. Hunt, E. B. Robinson, J. C. Barchus, W. C. Wilson, C. F. Nelson, E. B. Ferguson, L. B. Archer, W. G. Chambers, John McKune, C. J. Ezell.

## Perry From the South.

Ensign Newman K. Perry, Jr., was born in Columbia, S. C., Nov. 26, 1880. He was appointed cadet in 1897 and graduated in 1901. He was assigned to the Bennington as a watch and division officer in 1903 and was promoted to ensign on June 7 of this year. About a year ago he married Miss Marie Vrident, of Stockbridge, Mass., where his wife now lives. Lieutenant Perry has a sister, Mrs. Harry J. Jenkins, living at 19 Woodland Park.

## Recent Disasters on American Warships.

Battleship Missouri, off Pensacola, April 13, 1904, explosion of powder; 33 killed, 5 hurt.

Battleship Massachusetts, at Philadelphia, Dec. 15, 1904, explosion in fireroom, 3 killed, 4 scalded.

Battleship Iowa, April 9, 1903,

explosion of gun; 3 killed, 5 injured. Cruiser Olympia, Norfolk, Va., Sept. 12, 1903, explosion of barrel of alcohol; 2 killed, several wounded. Battleship Connecticut, September-October, 1904, three mishaps or attempts to wreck; no one hurt.

## MISS LATHAM DEAD.

Passed Away Sunday from  
Stomach Trouble.

Miss Mary Rebecca Latham, the only daughter of the late John C. and Mrs. Virginia Latham, died at the home of her mother, on Sunday morning of stomach trouble. Her death was unexpected, for up to within a day or two she was in apparent good health. She was taken quite ill Saturday night and Sunday morning it was evident to her physician and friends that the end was near.

Her brother, Mr. John C. Latham, of New York, was apprised of her death by telegraph, but he and his family were out of the city and could not be reached in time for him to get here until tomorrow.

The funeral service will take place today at 4 o'clock at the Episcopal church, conducted by Rev Geo. C. Abbott. The remains will be temporarily interred in the Latham lot in Hopewell cemetery.

Miss Latham belonged to an aristocratic Virginia family, her grandfather and mother coming from that State to Kentucky and locating in Logan county in early life. Mr. John C. Latham, Sr., being only five years old at that time. She is survived by her aged mother and one brother.

# THE BIG SALE AT WALL'S

Breaks all records of sales in Hopkinsville. We were simply overwhelmed Saturday with purchasers. Many could not be waited on. To them we offer our regrets. We expected a rush and prepared for it, but our force and 15 extra salespeople were not sufficient. We invite them to come back again. Come to-morrow, come every day. New things are constantly being added to this great sale.

# J. T. WALL AND COMPANY

## Notice.

Notice is hereby given to all whom it may concern that on the 7th day of July, 1905, the Mayor and Board of Council of the City of Hopkinsville, passed, adopted and approved an ordinance which is in word and figures as follows to-wit:

## Ordinance.

WHEREAS, it is deemed desirable that certain territory lying on the South side of Hopkinsville, Kentucky, between the Palmyra road and the Clarksville Pike, be annexed to and included in the Corporate Limits of the City of Hopkinsville.

It is therefore ordered by the Board of Council of the City of Hopkinsville, Ky.

FIRST: That upon its own motion certain territory lying South of the Corporate Limits of the City of Hopkinsville, between the Palmyra Road and the Clarksville Pike, consisting of about 35 acres and bounded and described as follows: Beginning at the intersection of the Corporate line with Nelson's West line; thence S. 24-1/2, W. 1,500 feet to a stone in G. B. Underwood's orchard; thence N. 76-1/2, W. 1,230 feet to a gate post on the East side of the Palmyra Road or Virginia Street; thence N. 14-1/2, E. 1,073 feet to a Cedar post on the East side of Virginia Street, at a point where the Corporate line intersects Virginia Street; thence S. 50 E. 676-1/2 feet to a stone corner; thence N. 17 E. 794 feet to the beginning, be annexed to, and included in the Corporate Limits of the City of Hopkinsville.

SECOND: That the Clerk of the Board of Council is hereby ordered and directed in publishing and advertising this ordinance to give notice that proceeding as will be instituted in the name of and on behalf of the City of Hopkinsville, in the Christian Circuit Court, for the purpose of annexing the territory described in the next preceding section to and including same within the corporate limits of the City of Hopkinsville, Ky. This ordinance takes effect on and after its adoption and publication.

Adopted July 7th, 1905.  
JNO. C. DUFFY,  
Clerk of the Board of Council of the City of Hopkinsville, Ky.  
Approved, July 7th, 1905.  
JOUBET HENRY, Mayor.

## Notice.

In pursuance of the foregoing ordinance notice to all whom it may concern, is hereby given that within thirty (30) days after the adoption, publication and advertisement of said ordinance and this notice, a petition will be filed in the Christian Circuit Court in the name and on behalf of the City of Hopkinsville, the object of which will be to annex the territory described in the above ordinance to, and include same within the Corporate Limits of the City of Hopkinsville, and in said petition there will be set out the passage, publication and advertisement of said ordinance; the object and purpose thereof, together with the metes and bounds of the territory which is proposed to be annexed to the City of Hopkinsville; and said petition will contain a prayer asking for a judgment of the Court authorizing said Board of Council to annex said territory aforesaid.

This July 7th, 1905.  
JNO. C. DUFFY,  
Clerk of the Board of Council of the City of Hopkinsville, Ky.

The brother of the widow of Herr Krupp was found dead in bed last week.

## CASTORIA

For Infants and Children.  
The Kind You Have Always Bought

Bears the Signature of *Dr. J. C. H. H. H.*

Twenty persons died from heat in New York and Chicago last week and the ice men are on a strike.

## To Cure Cold in One Day

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature on each box. 25c.

Three negroes were hanged in the county jail at Memphis, Tennessee.

Diphtheria relieved in twenty minutes. Almost miraculous. Dr. Thomas' Electric Oil. At any drug store.

Three members of Creator's Band have renounced their allegiance to Italy.

CASTORIA. The Kind You Have Always Bought  
Bears the Signature of *Dr. J. C. H. H. H.*

## Tutt's Pills

After eating, persons of a bilious habit will derive great benefit by taking one of these pills. If you have been DRINKING TOO MUCH, they will promptly relieve the nausea, SICK HEADACHE,

and nervousness which follow, restore the appetite and remove gloomy feelings. Elegantly sugar coated. Take No Substitute.

Dr. James Wallace, president of Allister College, at St. Paul, Minn., has resigned.

What's the secret of happy, vigorous health? Simply keeping the bowels, the stomach, the liver and the kidneys strong and active. Burdock Blood Bitters does it.

Chaplain Geo. W. Collier, U. S. A. is dead at Delaware, O. He died last week.

A little life may be sacrificed to a few drops of Castoria. Infantile dysentery, diarrhoea come suddenly. Only safe plan is to have Dr. Fowler's Extract of Wild Strawberry always on hand.

An engineer was killed in an accident on the New York Central railroad.

Here are a terrible treatment to the little folks, and to some older ones. Eucaly cured. Doan's Ointment never fails. Instant relief, permanent cure. At any drug store, 50 cents.

More trouble is threatened in Chicago, by a strike of 3-0 more experienced.

His Flood Test 25 Years.

The old, original Grove's Tasteless Child Tonic. You know what you are taking. It is iron and quinine in a tasteless form. No cure, no pay.

CASTORIA. The Kind You Have Always Bought  
Bears the Signature of *Dr. J. C. H. H. H.*

An Insurgent Palace.

Of Centajito, the capital city of the prince of Montenegro, father-in-law of King Victor Emmanuel of Italy, Sir John Farley, who has recently published a book on his public career, has a poor opinion. He writes: "I have often since been amused when reading in the papers of the fetes, receptions and banquets held in this capital, but from my knowledge of the place I have always felt somewhat skeptical as to their style and grandeur. The palace is called Bigrad, and we have in England many farmhouses with which it could not compete in size and comfort."

His Preference.

Mrs. Hatterson—Is your husband fond of young women?  
Mrs. Hatterson—Is he fond of them? Why, his second wife isn't born yet!—Life.

EVER WATCHFUL.

A Little Care Will Save Many Hopkinsville Readers Future Trouble.

Watch the kidney secretions. See that they have the amber hue of health; The discharge not excessive or infrequent; Contain no "brick-dust like sediment." Doan's Kidney Pills will do this for you.

They watch the kidneys and cure them when they're sick. Hopkinsville testimony proves it. J. W. Tunks, of 312 W. Seventh St., who is employed at the M. C. Forbes planing mill, says: "The condition of my health was such as to cause me a great deal of worry about my future. I had almost constant aching across the small of my back and the kidney secretions were highly colored, excessive and irregular, in fact, the disorder was so pronounced that it had been said it bordered on diabetes. I also suffered at times with a great deal of distress, which caused me a great deal of distress. At one time I was scarcely able to do any work at all for nearly a year. I doctored and tried various remedies but nothing did me any permanent good until I used Doan's Kidney Pills which I procured at L. A. Johnson's drug store. I had them only a few days when I noticed a change for the better and by the time I had finished the box I found they had brought about so decided an improvement in my condition as to convince me of their real worth and I am more than thankful for the relief that I have received."

For sale by all dealers. Price 60c. Foster-McMurrin Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

## The Christian Science Church and Its Founder

Annual Report Tells of Increasing Numbers—Church Architecture Sometimes Suggests "A Desire to Be Known as 'Different.'"

At the recent annual business meeting of the "mother" church of Christian Scientists in Boston, reports were made concerning increase in numbers.

The membership in 1903, when the first annual meeting was held, was 1,612; it is now 34,063. The 625 branches throughout the world have 38,216 members, making the total 73,279.

This "new religion" was "discovered" in 1846 by Mrs. Mary Baker Glover, a well-known woman, whose restoration that year from invalidism was looked upon as remarkable. In 1875 appeared the book "Science and Health," with Key to the Scriptures. In 1876 the Christian Science Association was formed, and three years later there came into existence a "mild-teaching church without creed, called the Church of Christ." In 1877 Mrs. Glover married Dr. Eddy, whose name she was to make so widely known. Mrs. Eddy was ordained to the ministry in 1881, two years after the Church of

Christ was founded. She certainly has made a most remarkable place of Pleasant view, personally directing much of the work of improvement. Noble trees, lawns, rose gardens and shrubbery surround her house; trim orchards, substantial barns, cultivated fields attest to the thrift and orderliness ruling there. Mrs. Eddy may be a dresser, she is also a worker. She is said to be a woman of fine presence, of the New England type.

She is now almost four-score years old, but sends forth messages to the church from her quiet home. She has led a very busy life, has been a methodical worker. There are accredited to her the following works: "Science and Health, with Key to the Scriptures;" "Retrospection and Introspection;" "Unity of Good and Unreality of Evil;" "People's Idea of God;" "Christian Healing;" "Rudimentary Divine Science;" "No and Yes;" "Christ and Christmas;" "Pulpit and Press;" "Church Manual of the First Church of Christ, Scientist;" "Miscellaneous Writings;" "Christian Science Versus Paganism."

Statistics of 1903 give the number of Christian Science churches in the United States as 568—surely these figures are large for a denomination recently founded. A writer in the New England Magazine, discussing Christian Science architecture, says: "A denomination only 25 years of age and neither large in numbers nor unusually wealthy, has been able with apparent ease to construct such a vast array of edifices at an average range from \$20,000 to \$100,000. The magnificent and substantial buildings which have been erected by the Christian Science movement, and which have been dedicated free from debt, mark a vital interest in the undertaking which has perhaps not been paralleled by any other religious society of its age in the history of the world." That saying "perhaps" leads us to quote these words:

No one will deny that the church growth in both senses of the word, of Christian Science is remarkable. The "mother" church, which was built in 1894, cost something like \$250,000. The First Church of Christ, Scientist, in New York, has an auditorium considered by architects one of the finest in the country. This structure, built of Concord granite, cost \$1,155,000, the whole cost paid before its dedication, in November, 1903. New York's second church also cost a goodly sum, over \$500,000.

Concerning the character of the numerous houses of worship built by the followers of Mrs. Eddy, this explanation is presented: "As to exterior, some of the Christian Scientist churches have held to the Gothic and Romanesque styles of architecture, with the tall

THE "MOTHER" CHURCH IN BOSTON.

spires and towers which quite generally prevail in church buildings of other denominations; others have departed radically from these, and have adopted the Grecian style, as if intent upon getting as far away from the ordinary custom as possible in order to make the outward structure as new as the religion to be taught therein."

Another writer says, in regard to the churches illustrating this achievement as Mrs. Eddy's—the founding of a great religious movement by a woman—is a fact historically without precedent. It proves her qualifications as a born leader of advancing thought. The movement of which she is the origin and head has been the cause of new and interesting movements in New England or in America at the present time, and her life and personality command attention."

ELEAN THAYER.

Find Coal-Black Rat.

A coal-black rat was caught in a trap at a police station at Portland, Ore., the other morning. The rat was unusually large in size and its skin was very soft, like velvet. The animal was drowned along with several other rats which were caught in the same trap. Many people saw the animal and they all said it was a black rat. It attracted a great deal of attention, even among the prisoners, in whose apartments it was caught.

## BURNING MOUNTAIN

STRANGE PHENOMENON WILL  
HAVE TERRIBLE END.

Theory Is That Big Hill Was Set  
Afire Years Ago by Indians—  
Will Soon Turn to Gigantic  
Black Chasm.

Away over in the western half of Colorado, a dozen miles from New Castle, is a mountain which lacks only a Dante-esque setting to make of it a worthy entrance into Hades. It is called by residents and strangers alike the "Burning Mountain," and no other name has ever been found or applied within the life of several generations. Some say it was set on fire by the Indians two score of years ago, and others that it caught fire through a coal mine which was once worked there. But just how the Indians could have set a mountain on fire 500 feet under ground, or how it might have caught from a coal mine when that mine is separated from the fire by a thick stratum of vertical stone are

THE BURNING MOUNTAIN

matters for mere conjecture. That the mountain is burning every season of the visitor who gets within a mile of the place will testify.

On nearly every side of the great hill are evidences of intense destruction. At one point tons upon tons of rock have tumbled into the yawning throat of a huge crater some 300 feet above the base of the mountain, to be burned to finest powder in the intense heat of an abyss of fire. A vast area of the mountain side above the crater in turn into flame longed scars. The fumes of sulphur are everywhere. All vegetation is dead. Every few weeks, as the combustible substances beneath are consumed, the law of gravitation asserts itself and great bodies of rock come crashing down into the fiery furnace to be slaked and crushed by the next succeeding conflagration.

The cracks in the mountain side are in some cases a dozen feet across. The heat from them is almost unbearable at a distance of 100 feet, and it is impossible to hold the hand in any of the smaller crevices for more than a few seconds.

At night, from below, the countless fissures look like campfires dotting an otherwise barren waste, but when a view is obtained from the top of other mountains they glow like angry inflamed wounds. Blue streaks of flame shoot across them and vanish. Occasionally there is an accumulation of gas which ignites and fills the entire fissure with a blinding glare of uncanny light, while a rumbling roar beneath tells of another rock mass dislodged and tumbled into some raging furnace still further below. A roaring, rushing sound not unlike the draft of some huge house furnace is always heard, and an everlasting mist of sulphur smoke hangs over the whole of the great hill.

The Rio Grande, whose waters flow by the mountain with quiet easy motion, which is so seldom found in a typical mountain stream, will eventually prove the end of this remarkable phenomenon, at least this is the theory which is advanced by scientists who have made a study of the strange case. When the gradual process of disintegration proceeds to such great length that fire and water meet, scientists declare that the greatest phenomenon, even greater than the burning mountain itself, will take place. It is declared on authority that when the fatal time arrives the site where the mountain stood will be turned into a great black hole and the terrible force generated by the meeting of fire and water will cause a shower of rocks. The entire country for several miles, as the story goes, will be buried under a terrific hail of stones which nothing can withstand. Thus, it is said, will "Burning Mountain" be a thing of the past.

W. W. GARRISON.

No Mercy.

When the foot-kicker came to the man who rocks the boat he was determined to mete out severe punishment. "Are you going to kill him?" asked the friend. "No," replied the foot-kicker, "that would be too lenient. I am going to make him marry a modern club woman so he will be doomed to rock the baby when she goes out."—Chicago Daily News.

The Last Word.

"Does your wife insist on having the last word?" said the man who asks impertinent questions. "Certainly not," answered Mr. Meekton. "She doesn't have to insist."—Washington Star.

## Don't Miss This!

## A close out deal on Sewing Machines.

We are going to quit the Sewing Machine business, and in order to quit quick we are going to sell

Standard \$60.00 Sewing Machine for **\$29.00,**  
Wheeler & Wilson Sewing Machine for **\$28.**

These machines are the latest improved and best on the market to-day. This is an opportunity you can't afford to miss if you are going to need a machine in the next ten years. Come and get one before they are all gone.

# FRANKEL'S Busy Store.

# State College of Kentucky, Lexington, Ky.

The Agricultural and Mechanical (State College) of Kentucky offers the following courses of study, viz: Agricultural, Horticultural, Chemical, Biological, Mathematical, Physical, Normal School, Classical, Mechanical Engineering, Electrical Engineering, Civil Engineering, and Mining Engineering, each of which extends over four years and leads to a degree. Post graduate studies are also provided, leading to a master's degree. Each course of study is organized under a separate faculty. The general faculty number nearly fifty professors and instructors.

County appointees receive free tuition, room rent in the dormitories, fuel and light, and if they remain ten months, traveling expenses. The laboratories and museums are large, well equipped, comprehensive and modern.

The Legislature appropriated \$60,000 for a college home for young women and \$30,000 for drill hall and gymnasium for men. Both buildings are completed and in use. Military tactics and science are fully provided for as required by Congress.

Graduates from the several courses of study readily find excellent positions and liberal remunerations. The demand is largely in excess of the ability of the College to supply.

Specialists with the necessary number of assistants have charge of each department of natural science. Summer schools are provided for pedagogy, engineering, instruction in science and in art. The State College of Kentucky, though bearing hitherto the title of "college," is the only institution in the Commonwealth doing, in any proper sense, university work.

The completion of the college home for young women provides facilities for good board and lodging. It is equipped with all modern conveniences, including bath rooms and room for physical culture. It is heated by steam and lighted by electricity.

An opportunity is thus afforded to young women of obtaining a thorough education in classics, modern language, literature, science, mathematics, logic, metaphysics, history, and political economy.

No other institution in the State offers advantages for education of women at all comparable to those offered by the State College of Kentucky.

For catalogues, method of obtaining appointments, information regarding courses of study, and terms of admission, apply to

JAS. K. PATTERSON, Ph. D., LL. D.

or to D. C. FRAZEE, Business Agent, Lexington, Ky.

Fall Term Begins Sept. 14, 1905.

## SPORTS AND ATHLETICS

The following of baseball among the leading western colleges, the past season has been most disappointing. With the possible exception of Michigan, not one of the big universities has shown the form displayed in previous seasons.

CAMPBELL.

and stopped short. Chicago started badly, losing most of their big games before showing much form. Toward the end of the season the Americans picked up a little, but went all to pieces in the final game against Illinois. Both Wisconsin and Northwestern had over years, the latter all but disbanding at the beginning of the season. The Purple's one joy lay in taking the two games played with Chicago, among the rest of the conference colleges, Indiana, Iowa and Purdue have average teams, while Minnesota had none at all. According to one critic the following men have shown up in their various positions, and are named as the all-star western college baseball team: Ranger, of Michigan, was the best pitcher he has shown up nearly all his games. He has great speed and combines this excellent quality with head work. Close at his heels comes Miller, of Chicago, and O'pergett, of Illinois. First-class catchers have been scarce, but Leahy, of Wisconsin, seems to have the call on the net. Harper, of Chicago, and Hatch, of Michigan, probably stand next in the order named. At the first sack Cutting, of Northwestern, is easily the leader. His long experience at Michigan stood him in good stead. He holds his position well and is a heavy hitter. For a green man, Abbott, of Chicago, has shown exceptional form, in another year he should develop into a top-notch. For second base, Weinberger, of Northwestern, seems to fill the bill. Not only is he a fielder of skill and judgment, but he also is called upon to line out a safe hit in a pinch, which is an excellent quality in an infielder. Brooks, who played for Illinois the latter part of the season, has shown up well. For shortstop, Campbell, of Michigan, has no close rival. He is easily the best in the west in his position, and has also the qualities of a captain. Wilkinson, Northwestern's little shortstop, has shown himself to be a player of the first water. His fielding being phenomenal at times. For third base, Vandagriff, of Illinois is perhaps the best who has played the position this season, although the Chicago, who was put in the outfield this year, is the better of the two. O'Brien, of Michigan, also holds the third sack down like a veteran, and is a hard hitter. In the outfield there are a number of good players—Paul and Baird, of Chicago; Rothsch, of Illinois; Wendell, of Chicago, and Cummings, of Wisconsin, all first-class players. The two Maroons are also in their catching and are good hitters, Paul being probably the best in the latter line of the whole bunch. Wendell, of Michigan, is a steady player, and although not a brilliant batter, has a knack of lining one out when most needed. The Illinois captain, Rothsch, has not been striking as good as formerly, but is a well when it comes to fielding.

Who is the champion of the big auto drivers at present? This is a question that is now agitating the motor racing world. Up to the present time Barney Oldfield has generally rated as the premier, but Barney was recently defeated by Charles Bassi in two straight heats, who, a few days later, went down to defeat before Louis Chevrolet in a record-breaking CHEVROLET contest. Chevrolet, in the race, lowered the world's mile record from 0:53 to 0:52 1/2 in his huge 50-horsepower Roadster. From grand old time Oldfield in two heats at a meet at Hartford, Conn. According to these performances Chevrolet has the best right to claim the honor.

Barney Oldfield, by his admission, is taking no chances nowadays. Oldfield has engagements now closed which will net him \$10,000. He has already made that much money this year. With Oldfield racing is a business, pure and simple, and he has learned to make money in a sure and steady way. His racing and touring car are carried through the country in a special baggage car, which may be loaded by freight or express. He carries with him two mechanics, and thinks nothing of a thousand-mile trip to ride in one race. As indicating the money that may be made by a man of Oldfield's prominence, his bonus of \$2,000 for driving two days at St. Paul is cited. Oldfield rarely appears that fast. In his last race, from 9:00 to 11:00 a. m. His expenses are largely borne by the makers, and much of this is profit. Hereafter nearly all the money that he makes, as Oldfield has been with his manager, Ernie Moros, and is now booking his own dates. Providing he goes through this season unscathed, he will probably be the South's and Australia will see America's most prominent driver next winter.

There is increase with health or decrease with illness or malnutrition. The best tonic for increasing the red blood corpuscles and building up healthy tissues is no doubt Dr. Pierce's Golden Medical Discovery. This discovery has been on the market for over a third of a century and numbers its cures by the thousands.

Dr. Pierce's Golden Medical Discovery will shrink the corpuscles of the blood and make them thin and weak. A cod liver oil makes the stomach grow because it is irritating. What is needed is a digestive extract, made of roots and herbs, without the use of alcohol, that will assist the stomach in getting the food, while the activity of the liver and cause it to throw off the poisons.

When we have accomplished this we have put the system in a fortified condition so strong that it can repel the germs of disease which we find everywhere—in the street-cars, the shops, the factories, the bedrooms, wherever many people congregate, or where sunlight and good air does not penetrate.

There is no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the blood. When we have put the system in a fortified condition so strong that it can repel the germs of disease which we find everywhere—in the street-cars, the shops, the factories, the bedrooms, wherever many people congregate, or where sunlight and good air does not penetrate.

Dr. Pierce, the eminent physician of Buffalo, N. Y., says, "If each person will consider his system as an army of men which he controls as a general, and will see to its proper provisioning and that it has plenty of ammunition in the shape of good red blood, he will be able to overcome the enemy in the shape of the germs of disease. Every healthy person has five million red blood corpuscles to every square millimeter of blood. The number of red blood corpuscles in the average human being is so great that it is almost incalculable. However, their number—

## MAY INVADE INDIA

RUSSIA LOOKS COVETOUSLY ON  
 BRITISH POSSESSION.

Afghanistan as Buffer State May Aid  
 Enemy—Natives of India Not  
 Particularly Loyal to  
 England.

For three centuries Russia has forced her way toward an open sea, and in this aggression she has moved her Asiatic boundaries both east and south. The advance has been made chiefly in central Asia, and the white bear has met with little resistance, the region being but thinly populated. There will be no such easy advance, however, if the greedy creature endeavors to place its paw on northern India—which has been threatening for some time past. The English are taking alarm over the building by the Russians of a new railroad from Samarcand to Balkh.

In spite of checks in war, Russia goes on in her pursuit of territory; efforts, secret and open, have been in

INDIAN NATIVE CAVALRY.

progress toward encroachment on northern India.

Do you remember how the land lies down there just beyond Asiatic Russia? Along the border are Persia, the Caspian sea, Afghanistan, and then the Chinese empire. Now, to the south, come India, Persia, Afghanistan, the Chinese empire; Afghanistan, the "buffer state" between the two great powers. Russia is straining every nerve to win the ameer for ally, and the present ruler being a modern, progressive young fellow, it is a little hard to find out just whether or not he will remain faithful to the British. England declares she desires the independence of Afghanistan, and it is thought she is honest in this declaration, is looked upon as the powerful ally of the little state.

But the ameer has recently shown that he is not without ambition, has objected to certain advice offered him by Great Britain. The latter country suggested the Afghans have their soldiers trained by British officers. He declined this kind aid, and asked of his ally the gift of a strip of land in Beluchistan where a railway might be built connecting Peshawar with a port on the Arabian sea. This railway enterprise probably is backed by the Russians.

Russia's wonderful secret service keeps the czar informed of everything going on along the Persian border and within Afghanistan. "Scientific expeditions" study the topography of the country that separates Russia and India, and the military authorities have accurate knowledge of mountain passes and possible means of entrance through "India's back door." The natural frontier is no insurmountable defense, the back door may presently cause the British a great deal of trouble, unless the Russians have learned a salutary lesson from the Japanese that shall keep them in order for awhile.

One thing on which Russia is said to build is the defection of the natives of India. That they have avowed loyalty for the ruling English is well known, and that that small loyalty has not been added to since Lord Curzon's administration of affairs. If Afghanistan opposes the case, this opposition would be serious. The ameer has something like 80,000 troops; there is a very good gun factory maintained at Kabul, the capital, generally the defensive condition of the country is good. The ameer seems able to take care of himself pretty well.

The relations of Afghanistan with the two powers close to her have changed from time to time. For the first year they were antagonistic, subsequently proved the stronger influence in the buffer state. The Russians moved the Afghans to revolt in 1841, they year they nearly annihilated the British troops stationed in their country. Immediately after the British had established themselves there. Then in 1878 when the British helped themselves to Beluchistan, the ameer considered alliance with Russia, the two powers showed no little heat over the matter; but when the ameer fled from his country and asked aid from Russia, he met with no response. Dynastic quarrels now followed. England was appealed to to take side. Wistly she kept to the policy of "masterly inaction" for several years, then a new Englishman took charge and showed aggressive front to the Afghans, insisting on residence in Afghanistan of English troops. The natives, hating the foreigners, rose, massacre and bloodshed resulted. The English found it better to take the part of friendly outside ally rather than intruder, and this is at present the state of affairs.

HENRY WHITEHOUSE

## Don't Jump

to conclusions and think, because you have suffered so long from chronic PAIN, that it is incurable. Whether you call it rheumatism, neuralgia, backache, earache, toothache, headache, a sprain, indigestion or some internal trouble, of which you don't rightly know the nature, the surest and most reliable relief and cure is **HAMLINS WIZARD OIL**.

This medicine acts directly upon the nerves and blood vessels in such a way as to relieve inflammation, reduce swellings, and drive out the exact cause of trouble to which the pain is due. Price 50 cents and \$1.00. Fully guaranteed.

# ARE YOU MAKING MONEY FAST ENOUGH?

If Not Read the Following Letter Carefully  
AND SEND YOUR REMITTANCE TODAY.

OFFICE OF

High Class Investments,  
Stocks, Bonds, Grain and Cotton.

**JAMES E. ENGLISH** Fraternity Building,  
Paducah, Ky.

DEAR SIR— I take the liberty of calling your attention to the fact that my office in the Fraternity building in Paducah, Ky., for the purpose of handling speculative deals for my customers that cannot avail themselves of the opportunity of trading in the future markets are now open, and by reason of the fact that for business reasons they cannot spare the time nor afford to remain all day on the floor of any local brokerage house, and have found that they cannot advantageously trade by mail, telephone or telegraph, and as you know, the successful trader is the man that can watch the board constantly, and take advantage of all sudden changes to "scalp" out a quarter or more profit at times, when to an inexperienced trader the market seems dull. This is a golden opportunity.

I have been very successful in handling deals for my clients, and have yet to record a loss in any transaction as a whole, and have made them a great deal of money. I have an experienced floor trader in the room of a local brokerage house with direct wires to Chicago, Kansas City, New Orleans and New York at all hours of the day, during market hours, and am better prepared to make you money than any broker that I can mention. I don't want to promise you too much, for as you know, there are two sides to the market, and you can lose your money just as easily as you can win, but with the knowledge and experience that I command, I can assure you that you can overcome many obstacles and disadvantages of the average trader, and can make more money in the markets in the next thirty days than you ever dreamed of, provided you will allow yourself to be governed by me and plans are completed for a big market "killing" in the near future, and it looks like that there is no possible chance to miscarry, but you must remember that nothing is sure but "death and Taxes."

I am inviting my friends to send me remittances, either by postoffice order, express or bank exchange, for sums not less than \$50 and not more than \$500 each, to join in this discretionary pool, to share in profits and losses equally share, and share alike, in proportion to the amount of their subscription to the pool, and when the deal is launched you will be advised, and on the closing of the same you will receive a statement of the transaction, and a check for any amount that is to your credit, unless you advise that I retain same and reinvest for you. A client of mine sent me \$900 recently for himself and friend and it is a matter of record that I handled this money so that the earnings on same were a little in excess of \$12,000 in sixty days. The opportunity to beat this record is here now, and before it is too late I would suggest that you remit me quick the amount that you think you can afford to risk on the best speculative market that has occurred in the last ten years. All correspondence will be held sacred, and my charges are nothing unless we are successful, then I retain one-third of the profits and remit you two-thirds and your principal. Your trade will receive protection from this pool that individual trades cannot enjoy and usually exhaust when original margins are consumed.

I earnestly advise you to send me a trial remittance, and allow me to demonstrate what I can do, and am sure you will be more than satisfied with the results. You are aware that unless this was absolutely the truth and a straight business transaction that I would be amenable to the United States postal laws, and no sane man would take that chance.

I hope to have the pleasure of hearing from you at once, with a remittance, and I would prefer you to send it by postoffice order, so that unless you desired it, no one would know of the "little flyer" you were taking in the market. Look at all the big fortunes of today. They were made principally by market trading, and it has come to be recognized as the only fast way a man can legitimately increase his wealth.

I am to be found in my suite of offices any business day after market hours, from 3 to 6 p. m., and invite a personal visit for private consultation; but in the meantime I urge you not to delay, but send a trial remittance and see the results.

Yours for prosperity,

Address All Mail to P. O. Drawer L. L., Paducah, Ky.

J. E. ENGLISH.

## \$12,000 IN SIXTY DAYS

### For One Client From an Investment of \$900.

Hunting Coat,  
Shell Belt,  
Leggins,

Or anything else in SPORTING  
GOODS line, call on

**Jack Meador,**

Home Phone 1277.  
Cumberland 646-2.  
No. 8, Main Street.

#### CONCRETE BLOCKS

All Right and Work Will  
Begin at Once.

For a month or more people have been wondering why the work of erecting the walls of the Y. M. C. A. building had never begun. The committee, with commendable caution, were awaiting tests of the concrete blocks which had been decided as the material to be used. The architect, Mr. V. P. Collins, of Louisville, met the committee here Friday, and after witnessing a test of the blocks, passed upon them and satisfied the committee that they would run no risk in building the walls with concrete blocks and work will begin at once. Subscribers to the building fund are requested to make good their subscriptions as soon possible. The Planters Bank and Trust Co. is authorized to receive money paid on pledges.

#### Cheap Rates.

The Illinois Central will sell round trip tickets to Louisville July 30th and 31st at one fare, plus 50c for the round trip. Tickets limited to return Aug. 10th.

#### MR. PIERCE DEAD.

Victim of Bright's Disease  
Died Sunday.

Mr. Frank Pierce, one of the oldest and best known men of the county, died at the residence of Mr. M. V. Owen Sunday afternoon at three o'clock, aged 73 years. He was a victim of Bright's disease and had been in feeble health for some time. He had been removed to Mr. Owen's home where he received every attention and his last days were made as comfortable as the nature of his disease would permit. His wife died about three years ago. He was buried at the Owen family burying ground at 3 o'clock yesterday.

Mr. Pierce was a man of the strictest integrity, deeply religious and was held in the highest esteem by everyone who knew him. He was kind, charitable and had no fears of death.

#### Killed by a Train.

Paducah, Ky., July 22.—G. W. Vanhouser, a youth of Claxton, Ky., who was here yesterday looking for a position as telegraph operator with the Illinois Central, was run over last night and badly mangled near Princeton, Ky. He had been dead several hours when his body was found at daybreak. He was about eighteen years old.

#### Bomar Goes to Illinois.

Charlie Bomar has signed with the Decatur, Ill., team of the Three I League and left for Decatur Sunday night. He will get \$125 a month. Gill Edwards has been pitching for the same team two years.

#### RURAL CARRIERS.

Examinations Held for Herndon and Gracey Routes.

Examination for Rural Route carriers for Nos. 1 and 2, out of Gracey, and No. 1, out of Herndon, was held here by Mr. Will Williamson Saturday. There were four applicants for the Gracey routes and three for Herndon, one applicant for the Herndon route being colored. The papers have been sent to Washington and the appointments will be made in about two weeks.

#### READ THIS!

Trenton, Ky., Jan. 24, 1892.—Dr. E. W. Hall, St. Louis, Mo., Dear Sir: Please find enclosed \$1.00 for one bottle of your Texas Wonder. I used one bottle for kidney and bladder trouble. I want this bottle for my wife. It is a real wonder and one of the greatest medicines in the world. I was passing pure blood and one bottle cured me sound and well. You can use my testimonial and photograph if you wish.

Yours truly,  
R. A. WILLIAMS,  
Real Estate Agent.

#### A Texas Wonder.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in men and women and regulates bladder troubles in children. If not sold by your druggist will be sent by mail on receipt of \$1.00. One small bottle cures two months treatment and seldom fails to perfect a cure. Dr. E. W. Hall, sole manufacturer, P. O. Box 629, St. Louis, Mo. Send for testimonial. Sold by all druggists and R. C. Hardwick, Hopkinsville.
